About the Endocrinology Research and Practice

Endocrinology Research and Practice (Endocrinol Res Pract) is a peer reviewed, open access, online-only journal published by the Society of Endocrinology and Metabolism of Türkiye.

Endocrinology Research and Practice is a quarterly journal that is published in English in January, April, July, and October.

Journal History

As of 2023, the journal has changed its title to Endocrinology Research and Practice. Previous title (1997-2022) was Turkish Journal of Endocrinology and Metabolism (EISSN: 1308-9846).

Abstracting and indexing

Endocrinology Research and Practice is covered in the following abstracting and indexing databases; Web of Science – Emerging Sources Citation Index, Scopus, CINAHL, Directory of Open Access Journals (DOAJ), EBSCO, Embase, TUBITAK ULAKBIM TR Index, Gale.

All content published in the journal is permanently archived in Portico.

Aims, Scope, and Audience

Endocrinology Research and Practice aims to publish studies of the high scientific value and encourages the submission of high-quality research that advances the understanding and treatment of endocrinologic and metabolic conditions.

Endocrinology Research and Practice covers a wide range of topics related to thyroid, obesity, diabetes, osteoporosis, lipid metabolism and pituitary. The journal is interested in publishing original research that addresses important clinical questions and advances the understanding and treatment of these conditions. This may include studies on the effectiveness of different treatments, new diagnostic tools or techniques, and novel approaches to endocrinology and metabolism. Starting from July 2022, Endocrinology Research and Practice does not consider manuscripts on pediatric endocrinology for publication, unless they are related with the adulthood transition.

Endocrinology Research and Practice publishes clinical articles, case reports, reviews, scientific letters, short reports, and technical reports and letters to the editor. Conference proceedings may also be considered for publication.

The target audience of the journal includes healthcare professionals, physicians, and researchers who are interested in or working in the endocrinology and metabolism field, and related disciplines.

Open Access Policy

Endocrinology Research and Practice is an open access publication.
